Relax. Relieve. Refresh.<sup>®</sup>

100% pure essential oils

## Help to Relax

*“We have a resident that wasn't sleeping. He will not sleep for two nights, and then on the third day, he collapses from exhaustion and sleeps 8 hours. With Elequil aromatabs<sup>®</sup>, **he is relaxed and sleeps much better** than before at a steady 6 hours a night.”*

~ Director, Long Term Care Center, Fairfield County, CT

## Soothe Queasiness

*“We typically use the orange-peppermint Elequil aromatabs<sup>®</sup> for our patients in the Oncology setting. **Elequil aromatabs<sup>®</sup> is wonderful in helping control queasiness.** Currently, we send them home with our patients to use between treatments, and then they have them on hand in a time of need. Great product.”*

~ Director of Oncology Services,  
Clinch Valley Medical Center, Richlands, VA

## Promote Comfort

*“Elequil aromatabs<sup>®</sup> is the best product for calming. I get so nervous going for a checkup to get my blood drawn and then having to wait a couple of hours for the results to see where my numbers are for my cancer—they will either be good or bad. **Elequil gets me through it.**”*

~ Johnny W., Patient, Waukegan, IL

## Improve Quality of Life

*“My mother has suffered from Alzheimer's / Dementia for 10 years and has extreme anxiety and anger because of the disease and her fear. **After two days of Elequil aromatabs<sup>®</sup> I felt like I had a piece of my mom back.** She was calmer and we had a conversation that was personal and made sense. I can't tell you how grateful I am to have found that this has helped us.”*

~ M. Merriman, Eugene, Oregon

## Reduce Procedure Cancellations

*“Elequil aromatabs<sup>®</sup> have been very beneficial for fretful patients during Breast Interventional Procedures and for the MRI patients. The biopsy patients are more relaxed and **we are experiencing fewer cancellations.**”*

~ Mammography Quality Control Coordinator, Jefferson Radiology, Farmington, CT
